The students are obviously surprised that \(6 \times 4 + 6 \times 4\) produces the same number as \(10 \times 4 + 2 \times 4\). For Lampert, this is important information about the students’ understanding (formative assessment—see Chapter 6). It is a sign that she needs to do many more activities involving different groupings.

Chapter 4 Quadratic Equations Objective Questions; 1) Federalism. This refers to the existence of more than one level of government in the country. In India, we have governments at the state level, at the centre and Panchayati Raj at the village level. The Constitution also has a section called Directive Principles of State Policy which

Commerce clause – The clause in the Constitution (Article 1, Section 8, Clause 1) that gives Congress the power to regulate all business activities that cross state lines or affect more than one state or other nations. Federal mandate – A requirement the federal government imposes as a condition for receiving federal funds.

Recall from Chapter 1 “Introduction to Criminal Law” that not all crimes require a bad result. If a crime does require a bad result, the prosecution must also prove the additional elements of causation and harm. A further requirement of some crimes is attendant circumstances. Attendant circumstances are specified factors that must be present when the crime is committed.
